

Duck Morning Notes, Oct 2018

Thanks to all the parent volunteers for coming with us to the pumpkin patch and for all their help with the field trip. We had a really good time picking individual pumpkins a big giant class pumpkin. We couldn't have done it without you!!

After washing our class pumpkin that we brought from the patch, we are currently busy carving it. We will keep carving it using a peg and hammer. After carving is done, we will take the seeds out and bake them. Children love to put their hands inside the pumpkin and scoop out the seeds and the gooey pulp. As we dissect the pumpkin, we will learn about the parts of the pumpkin and its life cycle.

October is also fire safety month and we are getting ready to engage in fire safety activities such as fire drill, fire safety songs and videos. Firefighters from Savoy fire department will visit our school to talk about fire safety and show their equipment. Children love to see fire fighters in their gear and mask. They also get to see the fire truck that's parked outside our school. It's a fun event for everyone.

We will end the month with a party and fall celebration. We hope to have a safe and enjoyable October

Ms. Kesar & Ms. Johnson
