

**KITTY ROOM – Extended Day Class**

November 30, 2018

The Kitty Room extended day students continue to learn American Sign Language with a review of signs related to school. They are beginning to combine signs into simple sentences during our group time. We are also counting in sign language and learning animal signs with a card game. During Yoga lessons, the children are forming animal poses and holding them until I play a chime. We are reading chapters from *Owl at Home* by Arnold Lobel. The children enjoy discussing owl's feelings as well as laughing at his antics!

Sincerely,

Ms. Lynn Holland
