

KITTY ROOM – Extended Day Class

February 27, 2019

The Kitty Room extended day students devote time on the line each day to conversing with American Sign Language. This gives the children an opportunity to combine the signs they have learned into sentences. We have been playing a new game called Yogame Zoo. The children travel through a zoo by imitating the animals in yoga poses. Spanish lessons this month have focused on parts of the body and shapes. The Kitty Room acted out the story of *Stone Soup* with props and songs. We are reading *Frog and Toad* by Arnold Lobel as a class. We are working on reading comprehension activities at line time such as summarizing what has been read, making predictions about what will happen next, and understanding the narrator's purpose. February was a fun time to enjoy a few Valentine's Day themed crafts!

Sincerely,

Ms. Lynn Holland
