

KITTY ROOM – Extended Day Class
NOVEMBER 2018

The Kitty Room extended day students continue to learn American Sign Language with a current focus on signs related to school. They are beginning to combine signs into simple sentences during our group time. During Yoga lessons, the children are working on more advanced animal poses. We have recently added a Yoga inspired song and dance time to the close of our lessons. The children enjoy this very much! Spanish lessons are reinforcing primary color names and introducing shapes. During our literacy skills focus time, the children delighted in acting out Halloween/Autumn stories and taking a curtsy/bow at the end of each performance! We finished reading our chapter book What A Witch Needs. This book helped the children learn that witches can give stray dogs (as well as black cats) a good and loving home. We ended the month with a few Halloween inspired crafts featuring bats, pumpkins and friendly ghosts.

Sincerely,

Ms. Lynn Holland
