

KITTY ROOM – Extended Day Class

March 25, 2019

The Kitty Room extended day students devote time on the line each day to conversing with American Sign Language. This gives the children an opportunity to combine the signs they have learned into sentences. We have been playing a new game called Yogame Zoo. The children travel through a zoo by imitating the animals in yoga poses. Spanish lessons this month have focused on good manners and asking for help. The Kitty Room acted out the story of *Five Monkeys* with props and songs. We are reading *Frog and Toad* by Arnold Lobel as a class. We are working on reading comprehension activities at line time such as summarizing what has been read, making predictions about what will happen next, and understanding the narrator's purpose.

Sincerely,

Ms. Holland
