

# Puppy Dog News Notes

The Puppy Dog class has continued the study of the continents.

We learned about marsupials and the unique animals found only on the continent of Australia. We also tasted an Australian treat; Marmite on toast. I think the overwhelming vote decided it was an aquired taste!

As we look at the continent of Africa we sorted animals into three different biomes; the grasslands, the desert, and the jungle. We also played an mbira (a thumb piano) and listened to music of Kahil El'Zabar.

We will finish our tour of the continents with Europe. In England we will enjoy tea time and listen to the sound of Big Ben. In France we will enjoy a bagette. We will end with Irish soda bread in Ireland.
